Auto-play sound/music when you sit in your Geely

Requirements:

- Apple iPhone
- Shortcuts app
- Geely CarPlay connected to your iPhone
- WiFi and Bluetooth must always be turned ON in your iPhone

Step 1

1. Download an MP3 sound into your iPhone
2. It must be saved in your iPhone Files app under Downloads folder
3. Make sure your MP3 file is saved there

NOTE: Plenty of tutorials online on how to download and save MP3 files on your iPhone

Step 2

1. Open the Shortcuts app on your iPhone
2. Tap on **+** sign then search **CarPlay**
3. Select **CarPlay** under **Automation**
4. Press on **Is Connected**
5. Turn **Automation**: **ON**
6. Turn **Notify**: **OFF**

Step 3

1. In Search, search for **Wait** and tap on it
2. Tap **1 second** and increase it, for e.g. **3 seconds**

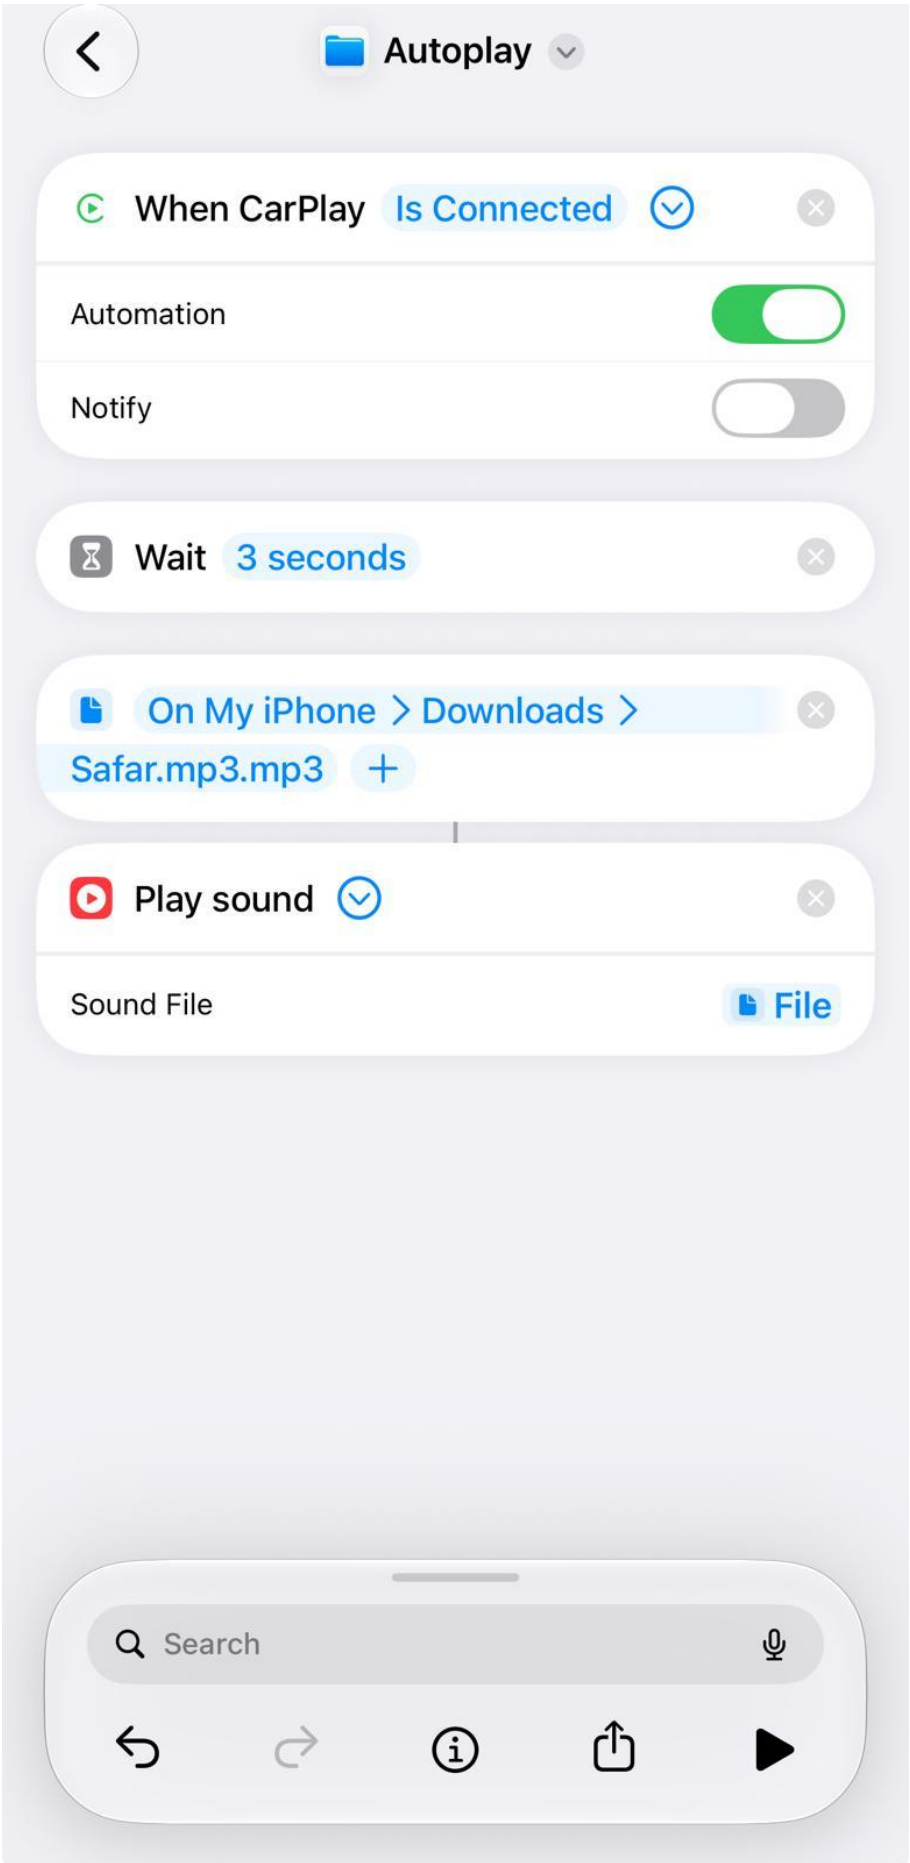

Step 4

1. In Search, type **File** and tap on it
2. Tap on **File** then Browse and choose your MP3 file

Step 5

1. In Search, search for **Play Sound** and tap on it

See next page for final screenshot
